

SOME COMMENTS FROM OUR CUSTOMERS TAKING DEER ANTLER CAPSULES

I have found this product to be a TOTAL cure for my debilitating arthritic neck condition. Lets hope it lasts! Thank you for your product – Doug Clark, Wakerley Qld

I had terrible pain in fingers on both hands, left worse. Since taking one bottle of Cervusen I have had great relief - Sydney Pedwell, Caboolture Qld.

This product has given me relief from severe Tinnitis, hasn't cured it, but more help than anything else I've tried - Mrs. B. Newson, Mt. Warren Park Qld.

Pills are working a treat, no sore and swollen knee and no pain when dancing, he's quite amazed and tells every man and his dog. June Humphris, Milang SA

I am very pleased with Cervusen. I haven't had a real bad backache, which is in the shoulders since taking them. Thank you. Hilda Stirling, Port Macquarie NSW

These tablets have given me great relief from back pain after an injury to my back after a fall on a concrete floor which squeezed 4 cushions out from between the vertebrae - E.M. Close Bayldon NSW

I have almost completed the first bottle of Deer Antler and have found a marked improvement already in the osteoarthritis in my hip and back. At last I can get a good nights sleep free from pain. - Mrs. C.D. Drover, Young NSW

Thank you for your suggestion of trying Deer Antler. I noticed that within three weeks of commencing to take one a day that the symptoms of my carpal tunnel syndrome had begun to fade and after another three weeks had disappeared. Being a sceptic I thought perhaps it was just a coincidence so when I ran out I didn't purchase anymore. Within a month my symptoms had returned, I have now recommenced taking the tablets and already feel some definite relief. - Jannette Collins, Bellingen NSW

We have had some good results from the deer antler. Carol has improved with her pain and has been off her anti inflammatory which gives her asthma, she said she hasn't had one attack since she has been taking the blue capsules. Owen in Gunnedah has had improvement with his tinnitis and I am still having relief from my fibromyalgia. - Judy Dennis Chronic Fatigue Support Group, Port Macquarie NSW.

You recommended me taking the Tension bottle for my Meniers syndrome middle ear problem. So far I have had 2 bottles and I do feel a lot better in myself, a little more energy and seem to be able to keep going a bit longer. Pam Hagarty, Prestons NSW.

I find these tablets give me wonderful relief for gout in my sprained ankle – Norm Anderson, Buderim

My wife has now been taking the Cervusen for only two weeks and the results are unbelievable, the first improvement was found after only the first week. She has in the past tried Celery capsules, Arthrelief, also Celebrex and several others, but none gave her the complete relief that she has found with Cervusen. I will be taking them shortly, but in the meantime we will be trying them on our daughter-in-law for Lupus, and will advise you of the outcome. Alec & Phyllis Rose Ingleburn

I have myopathy in my legs because of diabetes and Cervusen has eased the pain in my legs quite considerably. I can now go for short walks. Reg House, Richmond NSW

I visited your farm while on holiday at Macksville and while there I purchased a bottle of Cervusen tablets for Arthritis & Rheumatism which have given relief from an aching neck. Most of all which I

think is remarkable I have had Tinnitus in my ear for two years and now has improved greatly. The doctors have told me there is no cure but at least I have found relief. I take one tablet per day. Dorothy Chambers, Umina Beach NSW

Having been in much pain and discomfort for several months with acute tendonitis in my elbow I decided to try the Cervusen tablets to see if I'd get relief though I knew it was not arthritis. Well I can truthfully say after just one lot of capsules the relief is unbelievable to such an extent I can even garden again. Cecily Atton, Heathcote NSW

I want you to know how much improved I've been since I began taking the Cervusen. I have been afflicted for almost five years with Poly Myalgia Rheumatica and since taking them I'm more energetic, can do all the things around the home I've not been able to cope with and best of all my sleeping habit has improved so much. I really do believe these tablets are getting me back to my old energetic self. Jean Jackson, Charlestown NSW

I bought some Deer Antler Powder capsules as I was having trouble with the bones in my knee clicking and locking, causing me to falter in my step. I have taken them every day for the last six months and I have not had my knee give in once since taking them. I now am putting my new found energy into things I like doing mainly walking, tap dancing and swimming. D.E. Lawson Reading England

Wonderful relief for my Arthritis. Hopeful of greater possibilities. Joan Sowden, Cradoc TAS

Cervusen has been absolutely magic in the relief of my arthritic pain. Marion Wood, Macksville NSW

Just 12 months ago I was experiencing extreme aching of my knees all night. During the day my knees made strange noises and I was unable to kneel. After 1 month I noticed quite a difference and now for several months have been free of aching knees at night. Very thrilled with Cervusen – and I am scared to withhold the tablets, so have to keep taking them. Cath Price
